Nurit 8500x Terminal

United Bank Card and Verifone have developed the most advanced, multifunctional terminal on the market and you can add this payment solution to your business at no cost. The NURIT 8500x is exclusively available to UBC's merchant clients and its high security, large memory, processing power and UBC specific features make it an ideal solution for all of your payment processing needs.

Sophisticated Transaction Terminal

The 8500x has a large backlit graphical display and an ATM style button interface. It offers high-speed Internet connectivity options including Internet Protocol (IP) and LAN. The 8500x also contains a detachable thermal printer, an internal modem and 4MB of flash memory to make it one of the fastest, smartest payment terminals available.

Exclusive Feature

The NURIT 8500x boasts a variety of innovative functions. With the push of a button, you will be able to:

- Order supplies
- Order additional gift cards
- Alert UBC Customer Service
- Alert UBC Technical Support

Superior Security

The 8500x has been designed to comply with the most stringent security standards in the payment industry in order to properly safeguard your transactions:

- Visa PED Compliant
- Triple Data Encryption Standard (3DES)

Add a Nurit 8500x Payment Terminal to Your Business Free of Charge!
